# SOME QUICK FACTS

---

Liquid delivery systems can provide a more rapid onset than other edibles—as they begin absorption in the soft tissue of the mouth—but can still take up to 45 minutes or longer to take effect, as they are processed through the liver.

Each 100mg Dixie Elixir comes with a convenient 15ml dosing cap (6mg THC per dose), allowing consumers to find their perfect dose.

High-shear homogenization technology to reduce uptake time. High-shear homogenization uses centrifugal force and mechanical shear to intensely mix the ingredients together to reduce the particle size, resulting in a homogenous, uniform product.

Biological uptake is directly proportional to particle size, the smaller the particle size the greater the uptake.

Nut free, gluten free & vegan. Made with **PURE CANE SUGAR** and have **NO ARTIFICIAL COLORING, FLAVORING, or EMULSIFIERS.**
