### **1. WHAT IS A COOKIE?**

Cookies are small text files that are stored on your computer or mobile device. They are widely used in order to make websites work, or work in a better, more efficient way. They can do this because websites can read and write these files, enabling them to recognise you and remember important information that will make your use of a website more convenient (e.g., by remembering your user preferences).

### **2. HOW DO THIRD PARTIES USE COOKIES ON THIS SITE?**

In some circumstances, we may work with third parties to provide services on this site as well as in relation to advertising activities. In particular, third-party advertisers and other organizations **may use their own cookies** to collect information about your activities on this site and/or the advertisements you have clicked on. This information may be used by them to serve advertisements that they believe are most likely to be of interest to you based on the content you have viewed. Third-party advertisers may also use this information to measure the effectiveness of their advertisements.

To disable or reject third-party cookies, please refer to the relevant third party's privacy policy and/or cookie policy. You can also learn more about controlling these cookies in section 4 below.
