

# WHAT DOES A \$20B CORPORATE EXECUTIVE DO WHEN SHE WANTS TO LIVE HER PURPOSE?

She launches her global movement titled “The Revolution of Love” with the self-published, 135-page coffee table book and tool kit titled “The Sister Accord: 51 Ways To LOVE Your Sister.” Since the launch of this powerful movement, Sonia has spread her message of love, support and loyalty to millions of girls and women around the world. Now, she’s focused on meeting her goal of having 1 billion girls and women live the principles of The Sister Accord.

During her 20+ year career in corporate America, Sonia managed a cumulative total of \$20B. With the same tenacity, inspiration and compassion that she leveraged during her roles with corporations, she is now using to ignite the power of Sisterhood to ensure that girls and women everywhere establish meaningful relationships with each other.

As a result of her drive and willingness to serve others, Sonia has been recognized with numerous awards and media mentions. A few of these acknowledgements are:

When asked what the benefit of participation in The Sister Accord movement is, Sonia explains “The benefit of being part of The Sister Accord movement is having people understand the importance of positive relationships and the impact they can have on their lives. When I see girls having negative interactions, or women pulling hair and calling each other terrible names, it reminds me of the importance of my work, and sense of urgency required in reaching my goals. This movement is about love and respect. Every(one), male and female, deserves respect.
